## ANNOUNCEMENT

### PRODUCT UPDATE: Hardware Kit for Bolt-On Tuk-A-Way® Extension Plates Now an Option

In an effort to minimize scrap material, the extension plate bolt-on hardware kit for all applicable Tuk-A-Way® models (72-150/TE-20; TE-25, TE-33, GPT and GPTWR) is now an option. Please specify at the point of purchase if your Tuk-A-Way® model with bolt-on design features will be bolted or welded-on.

Bolt-On Hardware Kit

The hardware kit works for both the 96" and 102" wide extension plates and has been added under the options section in our July 2015 price book.

Note: If the extension plate gets bolted-on, it is mandatory to use this Maxon supplied hardware kit.

Thanks for supporting Maxon Liftgates.

For more information on product updates, please contact Customer Service at (800) 227-4116 or visit us at [www.maxonlift.com](http://www.maxonlift.com)
