

LEADER IN LIFTGATES
More than Building the Best Gates

60+ year history begins with the invention of the TUK-A-WAY® liftgate in 1957

Success based on innovations and industry leading pre- and after-sales service

Two strategically built factories (800,000 sq. ft.) designed purposely for high volume commercial liftgate production

Vertically integrated manufacturer and marketer of a vast range of liftgate products

Largest liftgate manufacturer in North America

Selecting a Liftgate Ride Type For Maxon Liftgates

There are three options to select from when choosing the type of platform ride for your Maxon liftgate. Each ride type is designed to meet a different set of material handling requirements.

Standard Ride

TE-20, TE-25/TE-30, TE-33/WR

Ideal for:

- Applications where load is stable on platform: boxes, drums, and pallets
- Applications requiring cost-effective, low-maintenance liftgates

Wedge Platform

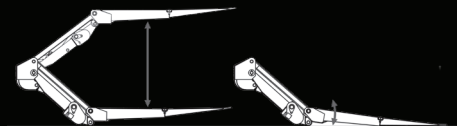

Fixed Ramp Platform

Level Ramping Ride

GPC X1-LDF, GPC X1/X4, MXT, GPT, GPTWR, GPS, GPST

Ideal for:

- Applications where easy on-and off-loading of pallet jacks and wheeled carts is required
- When you need the most flexibility and adjustability when operating on uneven or unstable surfaces
- Higher capacity loads

Level Ride

C2, MLA, DMD, DMD w/ DIB, DMD-TT, RC, RCT, GPTLR, GPSLR, GPSLRT, RA, BMR, RC-CS, BMR-CS

Ideal for:

- Applications with high or tall carts and loads
- Large and unwieldy loads: largest platform size range, with a wide selection of ramps, cart stops, retention devices
- The best solution for cart applications, platform jacks, and pallets

Fixed Ramp Platform

Platform with Retention Ramp

MAXON GATES AT A GLANCE - LIFTGATES FOR EVERY NEED

GATE TYPE	MAXON MODEL	Light-Duty	Medium-Duty	Heavy-Duty	ADVANTAGES
		VEHICLE GVW 14,000 LBS OR LESS MAXON GATE CAPACITY RANGE	VEHICLE GVW 4,000-26,000 LBS MAXON GATE CAPACITY RANGE	VEHICLE GVW 26,000 LBS OR MORE MAXON GATE CAPACITY RANGE	
LIGHT DUTY	C2	1,300 - 1,600 lbs	2,000 - 3,000 lbs	3,000 - 4,000 lbs	For Pick Up, Service Body, Stakebed, Van Body, and Dump Through applications. The MLA is designed for use on fire-service bodies and dry vans with an integrated rear step and twin cylinder direct drive. The all-new LDF, designed for today's cargo vans.
	MLA	1,500 - 2,000 lbs	1,600 - 2,000 lbs	3,300 - 4,400 lbs	
RAILLIFT™	DMD	1,300 lbs	2,200 - 3,300 lbs	4,400 lbs	Medium-Duty, fully hydraulic lift that utilizes a twin cylinder design to ensure smooth & efficient performance. Cable lift platform easily accommodates palletized or cart loads. Cable lift platform can be stored below bed level in the dock ready position. These gates offer the largest platforms possible and are designed for general as well as highly specialized freight loading. Efficient, lightweight design, accommodates low bed heights. Large platform and low bed height at a competitive price. Highest capacity standard TUK-A-Way dual cylinder design, available cart stops and walk ramp. These models combine low bedheight application with a premium level-ramping ride feature. The most sold premium TUK-A-Way product, WR version is walk ramp ready. Unique TUK-A-Way concept with level ride all the way to the ground, aluminum platform available. Accommodates widest variety of door configurations, auto-leveling in any terrain, versatile loading options. Level-ride SlideLift with optional Intelligent SmartStow® technology offers one-button, secure stowage. This slider is explicitly designed for trucks and excels in performance as well as compact dimensions Level ride, up to 5,500 lbs. lifting capacity, and the industry's toughest finish create the smartest choice in sliders for trucks. Purpose-designed trailer slide door slider with level ride platform. The best-performing, best-selling column-style lift comes GAL/VAN/ZED standard! Designed specifically for bottle handling, high capacity. Extra heavy-duty solution for gas bottle handling.
	DMD w/ DIB		2,200 - 3,300 lbs	3,500 - 4,500 lbs

	BMR-CS		3,500 - 4,400 lbs	3,500 - 4,400 lbs	

MAXON PRODUCT LINE

LIGHT DUTY

Designed to provide easy, safe, and cost-effective lifting of light to moderate loads. Maxon's product line features light duty options for pickup trucks, service bodies, stakebed, van bodies and cargo vans.

- C2 Pickup
- C2 Service Body
- C2 Stakebed & Van Body
- C2 Dump Through
- MLA
- Cargo Van GPC X1-LDF

TUK-A-WAY®

Designed so that the platform folds and stows under the truck body in dock ready position, the TUK-A-WAY is offered with a wide range of steel and aluminum platform configurations and various bed height options.

- TE-20
- TE-25/TE-30
- TE-33/WR
- MXT-25/MXT-33
- GPT
- GPTWR
- GPTLR

GAS BOTTLE

Liftgates to meet the special needs of its customers. Non-conventional loading practices require unique liftgate solutions.

- BMR-CS
- RC-CS

maxonlift.com/products/gas-bottle

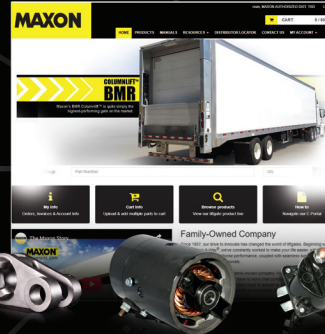

RAILIFT™

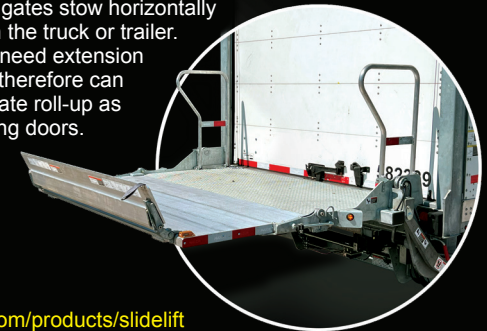

A classic that never goes out of style because its heavy-duty level ride and dock loading capability are designed to handle some of the most demanding distribution requirements.

- DMD
- DMD w/ DIBe
- DMD-TT
- RC
- RCT
- RC-CS
