

Maxon Lift Corp. to Exhibit at NTEA's Virtual Work Truck Week 2021 – Register TODAY!

We're excited to announce that Maxon will exhibit virtually at the upcoming Work Truck Week 2021 (WTW21). Taking place March 8-12th, NTEA has reimagined the way to connect us all remotely to the commercial vehicle community and to provide the latest product news and information relating to work trucks, equipment, technology and so much more.

All NEW Tuk-A-Way® MXT

As an exhibitor, Maxon will showcase the addition of the Tuk-A-Way® MXT-25 and MXT-33 liftgate models to our industry leading product line. The MXT-25 and MXT-33 liftgates combine low bed height application with a premium level-ramping ride design.

The MXT features a twin cylinder, mid-arm design that results in great performance and stability. MXT models are available in low bed height ranges of 38" to 46". With 2,500 lbs. (MXT-25) and 3,300 lbs. (MXT-33) for lifting capacities, the MXT models were strategically built to suit the need for low bed height chassis. "Maxon has been founded on the invention of the Tuk-A-Way® liftgate. The MXT is another extension of this heritage of innovation. For instance, the new MXT knuckling mechanism was designed to work in gravity mode for ultimate power consumption efficiency", says Brent Stratton (Office of the President).

Both MXT-25 and MXT-33 models feature a 48" x 80" wedge-type Steel, Steel/Aluminum as well as all-Aluminum platform with optional dual cart stops. Standard features include a bolt-on extension plate and steps, hydraulic locking, grease fittings at all critical rotation points and all steel components come hot-dip galvanized - **STANDARD.**

Sample optional features include: hand-held control, dual controls, cab cut-off switch, MAX ECU Electrical Control Unit, power down, dual cart stops, multiple step options, license plate mount kit and 24 Volt configurations. For the full list of options please refer to the MXT spec sheet on the [Maxon website](#).

Register for the Virtual Event

Don't miss out on this unique opportunity to connect with industry-leading manufacturers and suppliers. [REGISTER](#) today. Use code **WTW187090** for **FREE** event access to this virtual event. This code will be active *for only the first 100 distributor attendees*, so don't delay in registering. Once our code is no longer active, you will need to pay the registration fee as noted on the [Work Truck event site](#).

Virtual Event Schedule

We look forward to showcasing our newest products at WTW21. We hope you can make it and connect with us during the event.
