WARRANTY/ RMA POLICY & PROCEDURE

LIFTGATE WARRANTY

Type of Warranty: Full Parts and Labor

Term of Warranty: Standard Liftgates - 2 years from ship date or 6,000 cycles
Premium Liftgates - 2 years from ship date or 10,000 cycles

This warranty shall not apply unless the product is installed, operated and maintained in accordance with MAXON Lift's specifications as set forth in MAXON Lift's Installation, Operation and Maintenance manuals. This warranty does not cover normal wear, maintenance or adjustments, damage or malfunction caused by improper handling, installation, abuse, misuse, negligence, or carelessness of operation. In addition, this warranty does not cover equipment that has had unauthorized modifications or alterations made to the product.

MAXON agrees to replace any components which are found to be defective during the first 2 years of service, and will reimburse for labor based on MAXON's Liftgate Warranty Flat Rate Schedule. (Copy of the Flat Rate is available at www.maxonlift.com.)

All warranty repairs must be performed by an authorized MAXON warranty facility. For any repairs that may exceed \$500, including parts and labor, MAXON's Technical Service Department must be notified and an "Authorization Number" obtained.

All claims for warranty must be received within 30 Days of the repair date, and include the following information:

1. Liftgate Model Number and Serial Number
2. The End User must be referenced on the claim
3. Detailed Description of Problem
4. Corrective Action Taken, and Date of Repair
5. Parts used for Repair, Including MAXON Part Number(s)
6. MAXON R.M.A. # and/or Authorization # if applicable (see below)
7. Person contacted at MAXON if applicable
8. Claim must show detailed information i.e. Labor rate and hours of work performed

Warranty claims can also be placed online at www.maxonlift.com. Online claims will be given priority processing.

All claims for warranty will be denied if paperwork has not been received or claim submitted via Maxon website for processing by MAXON's Warranty Department within 30 days of repair date.

All components may be subject to return for inspection, prior to the claim being processed. MAXON products may not be returned without prior written approval from MAXON's Technical Service Department. Returns must be accompanied by a copy of the original invoice or reference with original invoice number and are subject to a credit deduction to cover handling charges and any necessary reconditioning costs. **Unauthorized returns will be refused and will become the responsibility of the returner.**

Any goods being returned to MAXON Lift must be pre-approved for return, and have the R.M.A. number written on the outside of the package in plain view, and returned freight prepaid. All returns are subject to a 15% handling charge if not accompanied by a detailed packing list. Returned parts are subject to no credit and returned back to the customer. Defective parts requested for return must be returned within 30 days of the claim date for consideration to:

MAXON Lift Corp.
10321 Greenleaf Ave., Santa Fe Springs, CA 90670
Attn: RMA# _____

MAXON's warranty policy does not include the reimbursement for travel time, towing, vehicle rental, service calls, oil, batteries or loss of income due to downtime. Fabrication or use of non Maxon parts, which are available from MAXON, are also not covered.

MAXON's Flat Rate Labor Schedule takes into consideration the time required for diagnosis of a problem.

All Liftgates returned are subject to inspection and a 15% restocking fee. Any returned Liftgates or components that have been installed or not returned in new condition will be subject to an additional reworking charge, which will be based upon the labor and material cost required to return the Liftgate or component to new condition.

PURCHASE PART WARRANTY

Term of Warranty: 1 Year from Date of Purchase.

Type of Warranty: Part replacement only. MAXON will guarantee all returned genuine MAXON replacement parts upon receipt and inspection of parts and original invoice.

All warranty replacements parts will be sent out via ground freight. If a rush shipment is requested, all freight charges will be billed to the requesting party.

SUMMARY OF CHANGES: M-18-10, REVISION B

PAGE	DESCRIPTION OF CHANGE
COVER	Updated REV. and date of release. Updated RA-44 model to RA-45.
	Illustrations changed to new design.
11	Corrected PM task numbers 1 to 20.
12	Updated lubrication diagram.
14-15	Updated checking hydraulic fluid procedure for new power unit.
15	Updated hydraulic oil tables.
16-17	Updated changing hydraulic fluid procedure for new power unit.
18-23	Updated platform bed height and in/out adjustment procedures.
24	Updated operation decal to P/N 283024-03 and capacity decal to 4500 LB (P/N 220388-05).
28-29	Updated pump and motor solenoid operation for single and dual pumps.
30	Updated hydraulic schematic - gravity down.
31	Updated hydraulic schematic - power down.
32-33	Updated electrical schematic 12V, gravity down with MAX ECU.
34-35	Updated electrical schematic 12V, power down with MAX ECU.
36-37	Updated electrical schematic 24V, gravity down.
38-39	Updated electrical schematic 24V, power down.

Comply with the following **WARNINGS** and **SAFETY INSTRUCTIONS** while installing Liftgates. See Operation Manual for operating safety requirements.

⚠ WARNING

Installing and maintaining a liftgate can expose you to chemicals, including lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. To minimize exposure, install and maintain liftgate in a well-ventilated area and wear **proper Personal protective equipment (PPE)**. For more information go to www.P65Warnings.ca.gov.

⚠ WARNING

- Do not stand, or allow obstructions, under the platform when lowering the Liftgate. **Be sure your feet are clear of the Liftgate.**
- **Keep fingers, hands, arms, legs, and feet clear of moving Liftgate parts (and platform edges) when operating the Liftgate.**
- **Correctly stow platform when not in use. Extended platforms could create a hazard for people and vehicles passing by.**
- **Disconnect Liftgate power cable from battery** before repairing or servicing Liftgate.
- **Remove all rings, watches and jewelry before doing any electrical work.**
- If it is necessary to stand on the platform while maintaining the Liftgate, keep your feet and any objects clear of the inboard edge of the platform. Your feet or objects on the platform can become trapped between the platform and the Liftgate extension plate.
- Recommended practices for welding on steel parts are contained in the current **AWS (American Welding Society) D1.1 Structural Welding Code - Steel**. Damage to Liftgate and/or vehicle, and personal injury could result from welds that are done incorrectly.
- Recommended practices for welding on aluminum parts are contained in the current **AWS (American Welding Society) D1.2 Structural Welding Code - Aluminum**. Damage to Liftgate and/or vehicle, and personal injury could result from welds that are done incorrectly.
- Recommended practices for welding galvanized steel are contained in the current **AWS (American Welding Society) D19.0 Welding Zinc-Coated Steel**. Damage to Liftgate and/or vehicle, and personal injury can result from welds that are done incorrectly.

MAXON[®]

SAFETY INSTRUCTIONS

- Read and understand the instructions in this **Maintenance Manual** before performing maintenance on the Liftgate.
- Before operating the Liftgate, read and understand the operating instructions in **Operation Manual**.
- Comply with all **WARNING** and instruction decals attached to the Liftgate.
- Keep decals clean and legible. If decals are illegible or missing, replace them. Free replacement decals are available from **Maxon Customer Service**.
- Consider the safety and location of bystanders and location of nearby objects when operating the Liftgate. Stand to one side of the platform while operating the Liftgate
- Do not allow untrained persons or children to operate the Liftgate.
- Wear appropriate safety equipment such as protective eyeglasses, faceshield and clothing while performing maintenance on the Liftgate and handling the battery. Debris from drilling and contact with battery acid may injure unprotected eyes and skin.
- Be careful working by an automotive type battery. Make sure the work area is well ventilated and there are no flames or sparks near the battery. Never lay objects on the battery that can short the terminals together. If battery acid gets in your eyes, immediately seek first aid. If acid gets on your skin, immediately wash it off with soap and water.
- If an emergency situation arises (vehicle or Liftgate) while operating the Liftgate, release the control switch to stop the Liftgate.
- A correctly installed Liftgate operates smoothly and reasonably quiet. The only noticeable noise during operation comes from the power unit while the platform is raised. Listen for scraping, grating and binding noises and correct the problem before continuing to operate Liftgate.
- Use only **Maxon Authorized Parts** for replacement parts. Provide Liftgate model and serial number information with your parts order. Order replacement parts from:

LIFTGATE TERMINOLOGY- RA

PERIODIC MAINTENANCE PERIODIC MAINTENANCE CHECKS

⚠ WARNING

Never operate the Liftgate if parts are loose or missing.

NOTE: Make sure vehicle is parked on level ground while performing the maintenance checks.

Quarterly or 1250 Cycles (whichever occurs first)

Check the hydraulic fluid level in the pump reservoir. Refer to the **CHECKING HYDRAULIC FLUID** procedure in the **PERIODIC MAINTENANCE** section. Keep track of the grade of hydraulic fluid in the pump reservoir and never mix two different grades of fluid.

If hydraulic fluid appears contaminated, refer to the **CHANGING HYDRAULIC FLUID** procedure in the **PERIODIC MAINTENANCE** section.

Check all hoses and fittings for chafing and fluid leaks. Tighten loose fittings or replace parts as required.

Check electrical wiring for chafing and make sure wiring connections are tight and free of corrosion.

Check that all **WARNING and instruction decals** are in place. Also, make sure decals are legible, clean and undamaged.

Check that all bolts, nuts, and roll pins are in place. Make sure roll pins protrude evenly from both sides of hinge pin collar. Replace fasteners and roll pins if necessary.

Check for debris and dirt buildup on the slider rollers and rails. Clean out any buildup of dirt and debris.

CAUTION

Damaged cylinder seals and contaminated hydraulic fluid can result from painting the polished portion of the cylinder rod. To prevent damage, protect the exposed polished portion of the cylinder rod while painting.

Check for rust and oily surfaces on Liftgate. If there is rust or oil on Liftgate, clean it off. Touch up the paint, where bare metal is showing, with aluminum primer touchup paint.

Pump EP chassis grease in each lube fitting on the cylinders and arms until grease starts oozing from ends of the bearings. The lubrication diagram on the **PERIODIC MAINTENANCE CHECKLIST SHEET** shows where to find the lube fittings. Wipe off excess grease with a clean lint-free cloth.

Check that safety chain and snap hook are in place.

Semi-annually or 2500 Cycles (whichever occurs first)

Visually check the platform hinge pins for excessive wear and broken welds. See **PARTS BREAKDOWN** section for replacement parts. Also, do the **Quarterly or 1250 Cycles** maintenance checks.

Annually or 5000 Cycles (whichever occurs first)

Change the hydraulic fluid.

PERIODIC MAINTENANCE MAXON GPSLR/RA LIFTGATE PREVENTATIVE MAINTENANCE CHECKLIST

PM Interval: Quarterly / Annual

Check Appropriate Box. "☐"

MAXON Quarterly / 1250 Cycles Liftgate PM Procedures				
Satisfactory	Repair Required	Corrected	1	Check your company's maintenance records to verify when quarterly and annual PM's are due.
Satisfactory	Repair Required	Corrected	2	Check for oil leaks: cylinders, fittings, hoses, valves, and fittings inside of pump box.
Satisfactory	Repair Required	Corrected	3	Check for damage: bent ramps, platform, flipover & hydraulic tubes.
Satisfactory	Repair Required	Corrected	4	Check for loose or missing nuts, bolts, covers, roll pins, screws and pins.
Satisfactory	Repair Required	Corrected	5	Check for cracked welds: platform, pump box and mounting frame.
Satisfactory	Repair Required	Corrected	6	Check platform lowering speed: Range is 7-11 seconds GPSLR/RA-35/-45 or 14 seconds GPSLR-55 with unloaded platform. Check motor (PD only) "S1" and "S2" valves for proper operation.
Satisfactory	Repair Required	Corrected	7	Check platform pins and couplers. Check roller assemblies.
Satisfactory	Repair Required	Corrected	8	Check platform raising speed: Range is 9-14 seconds GPSLR/RA-35/-45 or 14 seconds GPSLR-55 with unloaded platform.
Satisfactory	Repair Required	Corrected	9	Check open and close speed: Range is 6-12 seconds in either direction.
Satisfactory	Repair Required	Corrected	10	Check platform pins and couplers.
Satisfactory	Repair Required	Corrected	11	Check switches, circuit breaker & wiring connections on Liftgate as well as inside pump box. Also check that ground strap connections are tight.
Satisfactory	Repair Required	Corrected	12	Check gear pump for unusual noise (i.e. squealing or excessive RPM).
Satisfactory	Repair Required	Corrected	13	Check oil level with platform stowed. Refer to oil decal on pump reservoir. Check oil for contamination. Change if needed.
Satisfactory	Repair Required	Corrected	14	Check batteries: load test, corrosion, cables, hold downs and water level.
Satisfactory	Repair Required	Corrected	15	Check operation of cart stops and retention ramps (if equipped).
Satisfactory	Repair Required	Corrected	16	Check all charging and ground cable connections.
Satisfactory	Repair Required	Corrected	17	Pump EP synthetic grease in each lube fitting on the cylinders and arms. Wipe away grease seepage.
Satisfactory	Repair Required	Corrected	18	Follow your company's guidelines for completing PM stickers and maintenance records for the Liftgate.
Satisfactory	Repair Required	Corrected	19	Switch operation from pump 1 to pump 2, and from pump 2 to pump 1 (if equipped).
MAXON Annual / 5000 Cycles Liftgate PM Procedures				
Satisfactory	Repair Required	Corrected	20	Change hydraulic fluid.

For more detailed information, please refer to the applicable sections in this Maintenance Manual and the separate Parts Portal. Use only genuine Maxon replacement parts for all repairs.

PERIODIC MAINTENANCE CHECKLIST

NOTE: Lube fittings are shown for the LH cylinder, lift arm, and parallel arm.
There are also lube fittings at the same places on the RH cylinder, lift arm, and parallel arm.

Refer to lubrication diagram (**FIG. 12-1**) to find the lube fittings on gear drives, cylinders and arms. Pump EP chassis grease in each lube fitting on the gear drives, cylinders and arms until grease starts oozing from ends of the bearings. Then, wipe off excess grease with a clean lint-free cloth.

THIS PAGE INTENTIONALLY LEFT BLANK

CHECKING HYDRAULIC FLUID

CAUTION

Keep dirt, water and other contaminants from entering the hydraulic system. Before opening the hydraulic fluid reservoir filler cap, drain plug and hydraulic lines, clean up contaminants that can get in the openings. Also, protect the openings from accidental contamination.

NOTE: Use correct grade of hydraulic fluid for your location.
+50 to +120 Degrees F - Grade ISO 32
Below +70 Degrees F - Grade ISO 15 or MIL-H-5606
See **TABLES 15-1 & 15-2** for recommended brands.

1. Unstow and lower platform to ground.
2. Unlatch and remove pump cover (**FIG. 14-1**).

NOTE: If the hydraulic fluid in the reservoir is contaminated, do the **CHANGING HYDRAULIC FLUID** procedure in this section.

3. Check the hydraulic fluid level in reservoir as follows. With Liftgate on ground, level should be as shown in **FIG. 14-2**.

REMOVE PUMP COVER
FIG. 14-1

CAUTION

Do not fill reservoir to the **FULL** mark on the dipstick. Hydraulic fluid can overflow from the reservoir.

4. If needed, add hydraulic fluid to the reservoir as follows. Remove filler cap (**FIG. 14-2**). Fill the reservoir with hydraulic fluid to fill level range (**FIG. 14-2**). Reinstall filler cap (**FIG. 14-2**).

POWER UNIT HYDRAULIC
FLUID LEVEL
FIG. 14-2

CAUTION

Pump cover must be correctly secured to prevent it from becoming a hazard. Ensure pump cover is secured to pump box.

5. Reinstall and latch the pump cover as shown in FIG. 15-1.

CHANGING HYDRAULIC FLUID

CAUTION

Keep dirt, water and other contaminants from entering the hydraulic system. Before opening the hydraulic fluid reservoir filler cap, drain plug and hydraulic lines, clean up contaminants that can get in the openings. Also, protect the openings from accidental contamination.

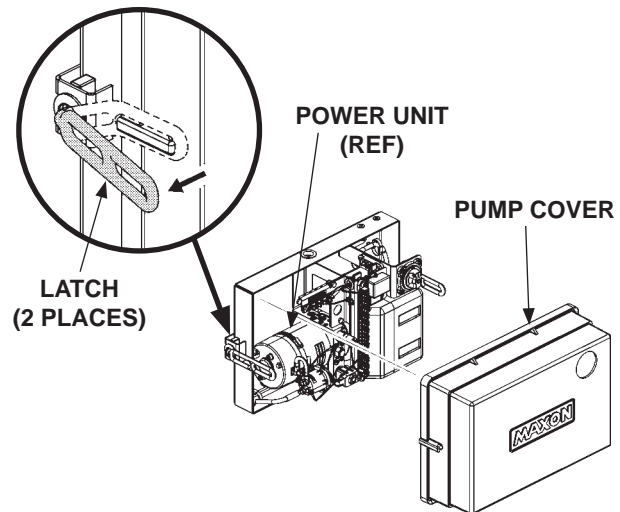

NOTE: Use correct grade of hydraulic fluid for your location.

+50 to +120 Degrees F - Grade ISO 32

Below +70 Degrees F - Grade ISO 15 or MIL-H-5606

See TABLES 15-1 & 15-2 for recommended brands.

1. Unstow and lower platform to ground.

2. Unlatch and remove pump cover (FIG. 16-1).

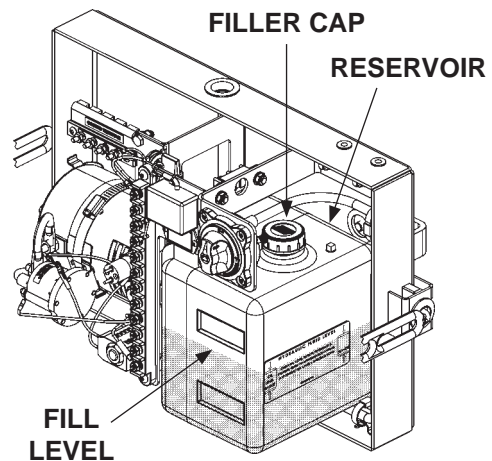

REMOVE PUMP COVER
FIG. 16-1

3. Place empty 5 gallon bucket under drain plug (FIG. 16-2). Remove drain plug (FIG. 16-2). Drain hydraulic fluid. Re-install drain plug (FIG. 16-2).

DRAIN HYDRAULIC FLUID RESERVOIR
FIG. 16-2

4. Remove filler cap (**FIG. 17-1**). Fill the reservoir with hydraulic fluid to fill level range (**FIG. 17-1**). Reinstall filler cap (**FIG. 17-1**).
5. Run the Liftgate through 3 complete cycles. Lower platform to ground. Confirm hydraulic fluid is in fill level range.

FILL PUMP RESERVOIR
FIG. 17-1

CAUTION

Pump cover must be correctly secured to prevent it from becoming a hazard. Ensure pump cover is latched to pump box.

6. Reinstall and latch the pump cover as shown in **FIG. 17-2**.

REPLACE PUMP COVER
FIG. 17-2

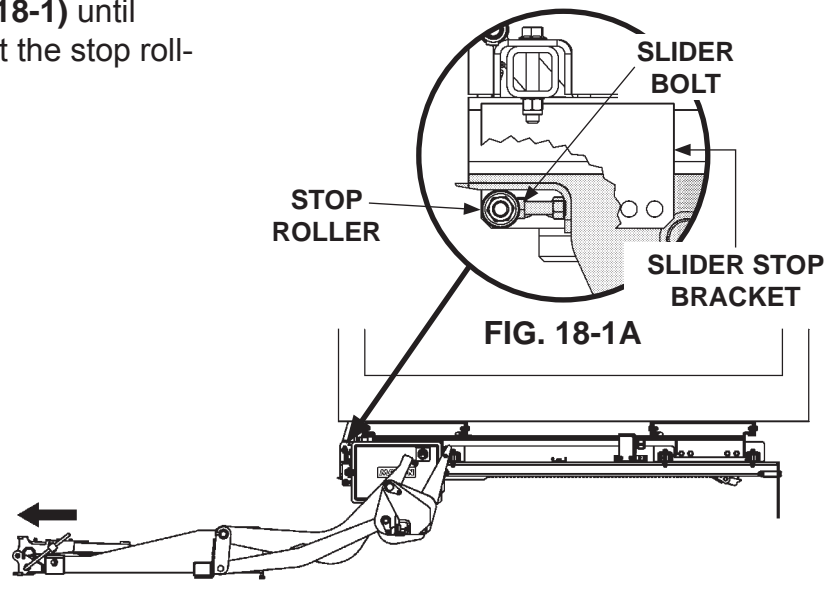

PLATFORM ADJUSTMENT

CAUTION

Operate Liftgate with caution and no load until installation is complete.

NOTE: Refer to **Operating Instructions** decal and applicable **WARNING & CAUTION** decals.

1. Move the platform out (**FIG. 18-1**) until slider mounting plate bolts hit the stop rollers (**FIG. 18-1A**).

LIFTGATE TRAVELS TO OUTBOARD STOPS
FIG. 18-1

2. Lower platform to 6" above ground level and unfold flipover (**FIG. 18-2**).

UNFOLD FLIPOVER
FIG. 18-2

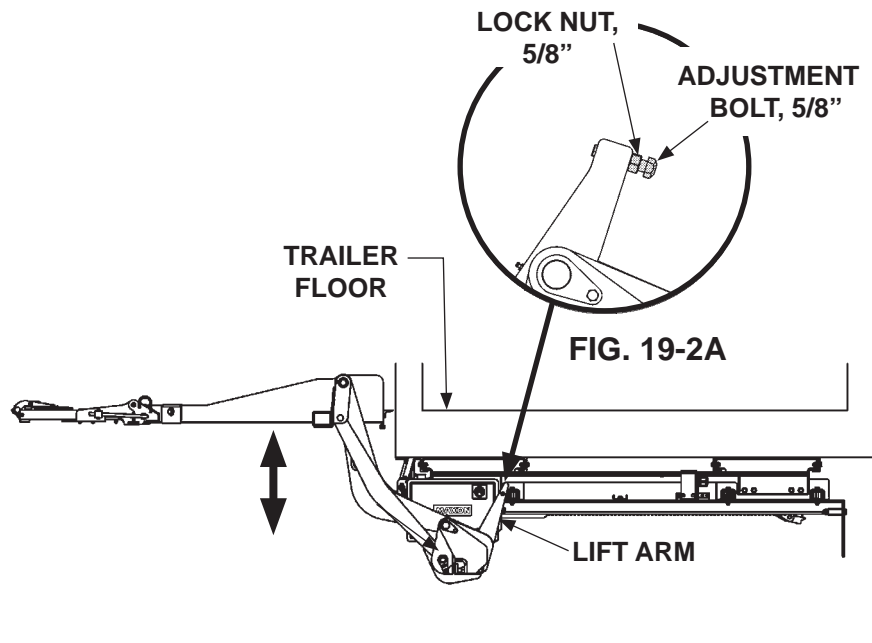

MAXON

11921 Slauson Ave. Santa Fe Springs, CA. 90670 (800) 227-4116 FAX (888) 771-7713

- Lower platform to ground level (**FIG. 19-1**).
Ensure platform tip and shackle touch ground.

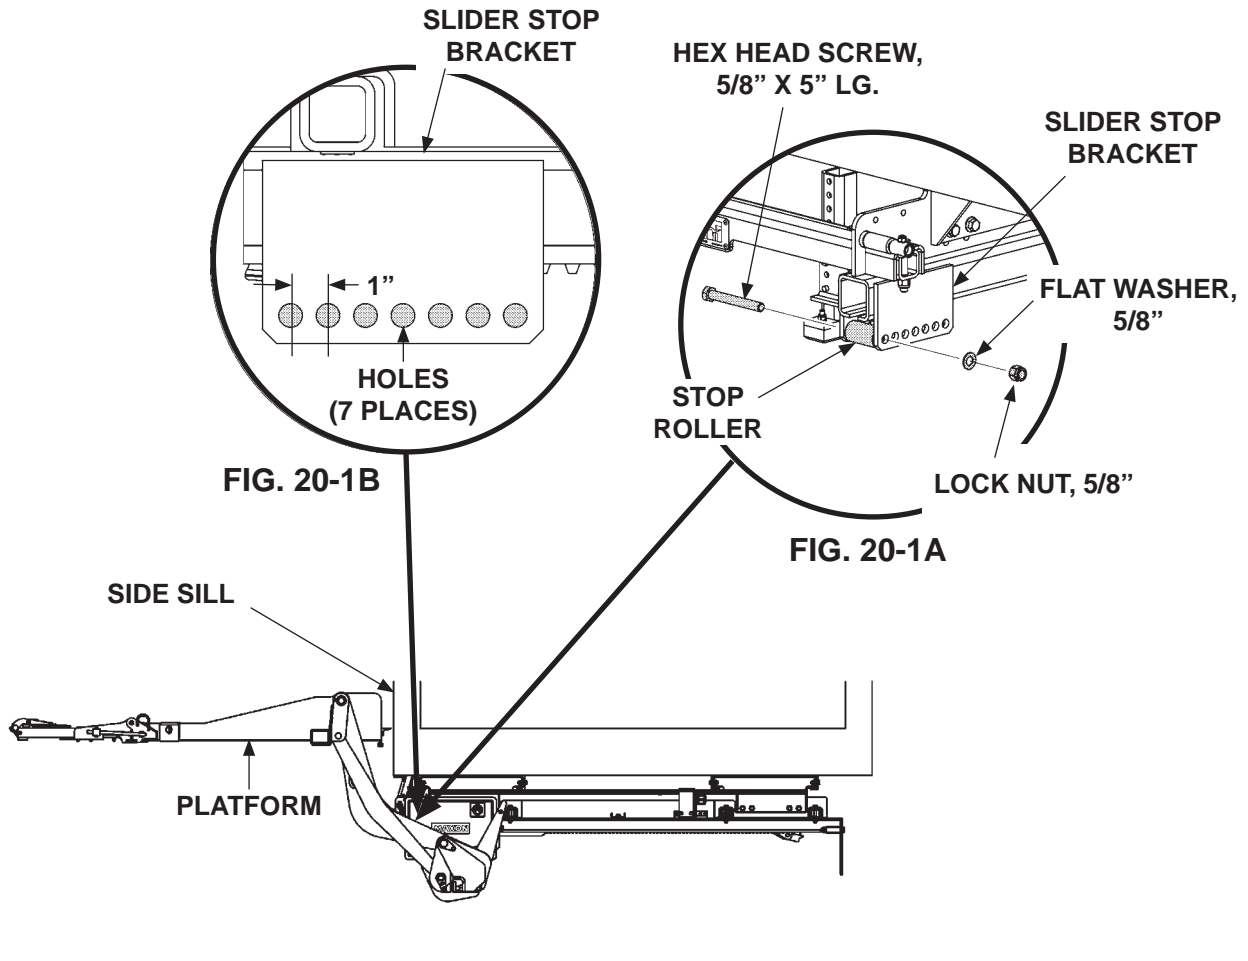

- Raise platform to trailer floor height and level it with trailer floor (**FIG. 19-2**) using adjustment bolts on lift arms (both sides) to raise or lower platform (**FIG. 19-2A**). Torque bolts to **160 lb-ft**.

PLATFORM ADJUSTMENT- Continued

5. Remove and unbolt stop roller from initial hole in slider stop bracket (FIGS. 20-1 and 20-1A). Bolt stop roller into the stop bracket hole which moves the platform to within 1" of side sill (FIGS. 20-1 and 20-1B). Torque each bolt to 160 lb-ft.

PLATFORM INITIAL IN/OUT ADJUSTMENT
FIG. 20-1

MAXON[®]

11921 Slauson Ave. Santa Fe Springs, CA. 90670 (800) 227-4116 FAX (888) 771-7713

6. If platform hits the side sill, measure and mark crossmembers all the way across, and cut the platform end to fit the door opening as shown in (FIGS. 21-1 and 21-1A).

PLATFORM ADJUSTMENT- Continued

7. Ensure platform is flush with vehicle floor.
If platform gap is 1" or less (**FIG. 22-1**), use adjustment bolts, located at stop rollers, to adjust platform end to approximately 5/8" gap from side sill (**FIGS. 22-1 and 22-1A**). Torque each bolt to **160 lb-ft**.

ADJUSTING PLATFORM - SIDE SILL GAP
(TOP VIEW)
FIG. 22-1

MAXON[®]

11921 Slauson Ave. Santa Fe Springs, CA. 90670 (800) 227-4116 FAX (888) 771-7713

CAUTION

Operate Liftgate with caution and no load until installation is complete.

NOTE: Refer to **Operating Instructions** decal and applicable **WARNING & CAUTION** decals.

8. Operate the Liftgate to ensure correct operation without binding or hitting side sill.

WARNING
Read this information carefully.

- Improper operation of this Liftgate can result in serious personal injury. If you do not have a copy of the operating instructions, please obtain them from your employer, distributor, or lessor before you attempt to operate Liftgate.
- If there are signs of improper maintenance, damage to vital parts, or slippery platform surface, do not use the Liftgate until these problems have been corrected.
- If you are using a pallet jack, be sure it can be maneuvered safely.
- Do not operate a forklift on the platform.
- Do not allow any part of yours or your helper's body to be placed under, within, or around any portion of the moving Liftgate, or its mechanisms, or in a position that would trap them between the platform and the ground or truck when the Liftgate is operated.
- If a helper is riding the platform with you, make sure you are both doing so safely and that you are not in danger of coming in contact with any moving or potentially moving obstacles.
- **USE GOOD COMMON SENSE**
- If load appears to be unsafe, do not lift or lower it.

For a free copy of other manuals that pertain to this model Liftgate, please visit our website at www.maxonlift.com or call Customer Service at (800) 227-4116. P/N 282522-01 **C**

SAFETY INSTRUCTIONS
Read all decals and operation manual before operating liftgate.

1. Do not use liftgate unless you have been properly instructed and have read, and are familiar with, the operating instructions.
2. Be certain vehicle is properly and securely braked before using the liftgate.
3. Always inspect this liftgate for maintenance or damage before using it. Do not use liftgate if it shows any sign of damage or improper maintenance.
4. Do not overload
5. Make certain the area in which the platform will open and close is clear before opening or closing the platform.
6. Make certain platform area, including the area in which loads may fall from platform, is clear before and at all times during operation of liftgate.
7. This liftgate is intended for loading and unloading of cargo only. Do not use this liftgate for anything but its intended use.

P/N 282522-01 **A**

WARNING
Liftgate hazards can result in crushing or falling.
Keep hands and feet clear of pinch points.
If riding liftgate, make sure load is stable and footing is solid. P/N 282522-01 **B**

Read and understand all instructions and WARNINGS before use.
