

## LEADER IN LIFTGATES

More than Building the Best Gates

60+ year history begins with the invention of the TUK-A-WAY® liftgate in 1957

Success based on innovations and industry leading pre- and after-sales service

325,000 sq. ft. factory designed puposely for high volume commercial liftgate production

Vertically integrated manufacturer and marketer of a vast range of liftgate products

Largest liftgate manufacturer in North America

Distributed by:

## Selecting a Liftgate Ride Type For Maxon Liftgates

There are three options to select from when choosing the type of platform ride for your Maxon liftgate. Each ride type is designed to meet a different set of material handling requirements.

### Standard Ride

TE-15/TE-20, TE-25/TE30, TE-33/WR

Ideal for:

- Applications where load is stable on platform: boxes, drums, and pallets
- Applications requiring cost-effective, low-maintenance liftgates

### Level Ramping Ride

GPC X1-LDF, GPC, GPT, GPTWR, GPS, GPST

Ideal for:

- Applications where easy on-and off-loading of pallet jacks and wheeled carts is required
- When you need the most flexibility and adjustability when operating on uneven or unstable surfaces
- Higher capacity loads

### Level Ride

Me2, DMD, RC, RCT, GPTLR, GPCLR, RA, BMR, RC-CS, BMR-CS

Ideal for:

- Applications with high or tall carts and loads
- Large and unwieldy loads: largest platform size range, with a wide selection of ramps, cart stops, retention devices
- The best solution for cart applications, platform jacks, and pallets

## MAXON GATES AT A GLANCE - LIFTGATES FOR EVERY NEED

GATE TYPE	MAXON MODEL	MAXON GATE CAPACITY RANGE			ADVANTAGES
		Light-Duty VEHICLE GVW 4,000 LBS OR LESS	Medium-Duty VEHICLE GVW 14,001-24,000 LBS	Heavy-Duty VEHICLE GVW 25,001 LBS OR MORE	
LIGHT DUTY	Me2	1,300 - 1,600 lbs			For Pick Up, Service Body and Stakebed / Van Body applications.
	GPC X1-LDF	1,300 lbs			
RAILLIFT™	DMD		2,200 - 3,300 lbs		Medium-Duty, fully hydraulic lift that utilizes a twin cylinder design to ensure smooth & efficient performance. Cable lift; large platform easily accommodates palletized or cart loads. Cable lift; platform can be stored below bed level in the dock ready position. The first North American designed and manufactured cantilever style liftgate. Efficient, lightweight design; accommodates low bed heights. Large platform and low bed height at a competitive price.
	RC		2,000 - 3,000 lbs	2,000 - 6,000 lbs	
	RCT	3,000 - 4,000 lbs	3,000 - 4,000 lbs		
CONVENTIONAL	GPC	2,200 - 4,400 lbs	2,200 - 4,400 lbs	2,200 - 4,400 lbs	Highest capacity standard TUK-A-WAY® dual cylinder design; available cart stops and walk ramp. The most sold premium TUK-A-WAY® product; WR version is walk ramp ready. Unique TUK-A-WAY® concept with level ride all the way to the ground; aluminum platform available. Accommodates widest variety of floor configurations; auto-leveling in any terrain; versatile loading options. Intelligent SmartSlow™ technology offers one-button, secure stowage. This slider is explicitly designed for trucks and excels in performance as well as compact dimensions Purpose-designed trailer side door slider with level ride platform.
	TE-15/TE-20	1,500 lbs	2,000 lbs		
	TE-25/TE-30	2,500 lbs	3,000 lbs		
TUK-A-WAY® PREMIUM	TE-33 /WR		3,300 lbs		The best-performing, best-selling column-style lift; comes GALVANIZED standard! Designed specifically for bottle handling; high capacity. Extra heavy-duty solution for gas bottle handling.
	GPT & GPTWR	2,500 - 5,000 lbs	2,500 - 5,000 lbs	3,500 - 6,600 lbs	
	GPTLR	2,500 - 3,300 lbs	2,500 - 5,500 lbs	3,000 - 4,000 lbs	
SLIDE LIFT®	GPS		4,400 lbs	4,400 - 5,500 lbs	The best-performing, best-selling column-style lift; comes GALVANIZED standard! Designed specifically for bottle handling; high capacity. Extra heavy-duty solution for gas bottle handling.
	GPCLR		4,400 lbs	4,400 - 5,500 lbs	
	GPST		4,400 lbs	4,400 lbs	
COLUMN LIFT™	RA		3,500 - 4,500 lbs	3,500 - 6,600 lbs	The best-performing, best-selling column-style lift; comes GALVANIZED standard! Designed specifically for bottle handling; high capacity. Extra heavy-duty solution for gas bottle handling.
	BMR	3,500 - 6,600 lbs	3,500 - 6,600 lbs	3,500 - 6,600 lbs	
	RC-CS	3,000 - 4,000 lbs	3,000 - 4,000 lbs	3,000 - 4,000 lbs	
GAS BOTTLE	BMR-CS	3,500 - 4,400 lbs	3,500 - 4,400 lbs	3,500 - 4,400 lbs	The best-performing, best-selling column-style lift; comes GALVANIZED standard! Designed specifically for bottle handling; high capacity. Extra heavy-duty solution for gas bottle handling.

# MAXON PRODUCT LINE

## LIGHT DUTY

Designed to provide easy, safe, and cost-effective lifting of light to moderate loads. Maxon's product line features light duty options for pickup trucks, service bodies, stakebed, van bodies and cargo vans.

- Me2 Pickup
- Me2 Service Body
- Me2 Stakebed & Van Body
- Cargo Van GPC X1-LDF

[maxonlift.com/products/light-duty](http://maxonlift.com/products/light-duty)

## TUK-A-WAY®

Designed so that the platform folds and stows under the truck body in dock ready position, the TUK-A-Way is offered with a wide range of steel and aluminum platform configurations and various bed height options.

- TE-15 / TE-20
- TE-25/TE-30
- TE-33
- GPT
- GPTWR
- GPTLR

## GAS BOTTLE

Liftgates to meet the special needs of its customers. Non-conventional loading practices require unique liftgate solutions.

- BMR-CS
- RC-CS

[maxonlift.com/products/gas-bottle](http://maxonlift.com/products/gas-bottle)

## RAILIFT™

A classic that never goes out of style because its heavy-duty level ride and dock loading capability are designed to handle some of the most demanding distribution requirements.

- DMD
- RC
- RCT
- RC-CS

[maxonportal.maxonlift.com](http://maxonportal.maxonlift.com)

## SLIDELIFT®

Slider-type gates stow horizontally underneath the truck or trailer. They don't need extension plates and therefore can accommodate roll-up as well as swing doors.

- GPS
- GPSLR
- GPST
- RA

[maxonlift.com/products/slidelift](http://maxonlift.com/products/slidelift)

## CONVENTIONAL

Stored flush against the door of trucks or trailers, GPC gates often serve as the actual door or tailgate to these vehicles. Designed for general freight loading, conventional liftgates can be used with trucks and trailers.

- GPC

[maxonlift.com/products/conventional](http://maxonlift.com/products/conventional)

## COLUMNLIFT™

Built tough with rugged columns to withstand gate impacts, faster operation, lower power consumption, and reduced maintenance costs

- BMR
- BMR-CS
